ENGINE OIL SPECIFICATIONS

At MotoFyx, we prioritise the health of your engine by choosing MOBIL 5W-30 & 5W-40, a fully synthetic oil renowned for its superior performance and consistency. Here's a deeper look at why it's our choice:

- **Viscosity at Low Temperatures (5W)**: Ensures excellent fluidity at lower temperatures, reducing engine wear during cold starts—the most critical time for engine protection.
- **Performance at High Temperatures (30)**: Maintains thickness to protect engine components under the high heat of operation, preventing breakdown and excessive wear.
- **Synthetic Formula**: Offers uniform molecular structures for better film strength, reduced friction, and enhanced fuel economy, outperforming conventional oils.
- **Universal Suitability**: Recommended widely due to its balanced properties, 5W-30 & 5W-40 suits a variety of cars and adapts well to the diverse climates across India, ensuring optimal engine performance

This careful selection reflects our dedication to delivering top-tier service, ensuring every vehicle we handle performs at its best. Ask us for performance upgrades with 5W-40 / 0W-40 to further enhance your car's engine performance!

COMMITMENT TO QUALITY: OEM & OES PARTS

Quality is non-negotiable at MotoFyx. We exclusively use Original Equipment Manufacturer (OEM) and Original Equipment Supplier (OES) parts for all replacements and repairs. This commitment ensures that each part meets rigorous standards for compatibility and durability, aligning with the original quality and specifications of the parts used during the manufacture of your car. We ensure your car maintains its performance and integrity, just as the manufacturer intended.

CHECKPOINT	VALUE	REMARK
Outside vehicle check - Position of vehicle: Base Position		
Check Front Wiper Function	Good	
Check Rear Wiper Function	Feature not available in car	
Check RHS indicator light	Good	
Check Head Light Low Beam	Good	
Check Head Light High Beam	Good	
Check Head Light Flashing	Good	
Check Head Light Leveling	Good - as per basic physical inspection	
Check Door Lock Front LHS	Good	
Check Fuel Tank Lid Opening	Good	
Check Door Lock Rear RHS	Good	
Check Hatch Back Lock	Good	
Check Tyre Pressure including Stepnee	Good	
Check Door Lock Rear LHS	Good	
Check Speedometer Functioning	Good	
Check LHS indicator light	Good	
Check Hazard Warning Lights	Good - No Lights Observed	
Check Door Lock Front RHS	Good	
Check Power Window Front RHS	Good	
Check Power Window Front LHS	Bad - Not working properly	Winder switch is suspected to be faulty
Check Power Window Rear RHS	Good

Wheel Alignment	Bad	

TRANSPARENT REPORTING: YOUR COMPREHENSIVE CAR SERVICE REPORT

At MotoFyx, transparency is central to our service philosophy. Every customer receives a comprehensive service report after each visit, detailing the condition of their car, the work performed, and any recommendations for future maintenance. This report is crucial for keeping you informed and involved in the care of your car. It reflects our thorough approach and aids in making informed decisions about your car's maintenance needs
